

EVOCHARGE Infra Pvt. Ltd. is a pioneering company dedicated to revolutionizing India's electric vehicle (EV) infrastructure. With a commitment to sustainability and innovation. We are building a widespread EV charging network pan India, strategically placing high-speed charging stations every 200 km along major highways and main approaching roads. Our goal is to accelerate India's transition to clean energy and eco-friendly transportation by addressing the critical gap in charging infrastructure. **EVOCHARGE Infra Pvt. Ltd.** EV charging network will eliminate range anxiety and enable effortless long-distance EV travel. Our compact, technology-driven stations are designed for efficiency, offering seamless digital integration and premium user experiences.

Driving India's Clean Mobility Revolution

We are set to install approximately 6,000 EV charging stations across India in a phased manner to meet the growing demand for sustainable transportation solutions. With our extensive experience spanning infrastructure development, real estate, finance, business networks, and various government collaboration projects, we bring a robust foundation to ensure the success and long-term sustainability of this ambitious initiative.

This project is powered by private investments, and we actively seek government partnership through strategic land allocation and a transparent revenue-sharing model. Together, we can deliver a cost-effective, scalable, and sustainable EV ecosystem, contributing meaningfully to India's clean energy goals.

Join us in shaping the future of green transportation. Let's drive innovation, build strategic collaborations, and make India a global leader in clean mobility.
